

# SEE IT. SHARE IT. SOLVE IT.

---

A smart IoT device for Digital Pathology and Hematology Image Analysis for **Real Time Remote Viewing.**

Innovation with Integrity

# Lab Life, Upgraded!

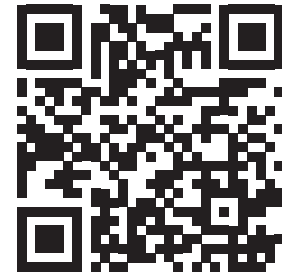

## Real-Time Digital Microscopy in Action.

Experience **NED Real-Time Digital Microscope** - where speed, accuracy and collaboration meet.

Take our **5-Question Challenge** to uncover YOUR lab's **biggest pain points** – and we'll show you a customized demo that solves them.

**SCHEDULE A DEMO!**

**NED-DP** for Digital Pathology

**NED-DH** for Digital Hematology

### With NED, labs are saying:

- + “No more wiping the scope.”
- + “We operate like a BIG lab affordably.”
- + “Yes, abnormal red cells counted!”

### Diagnostics shouldn't mean:

- Neck strain from the scope
- Endless stain changes
- Waiting hours for reviews
- Courier costs
